

## do you eat Kaskadenkondensator, Basel 2008

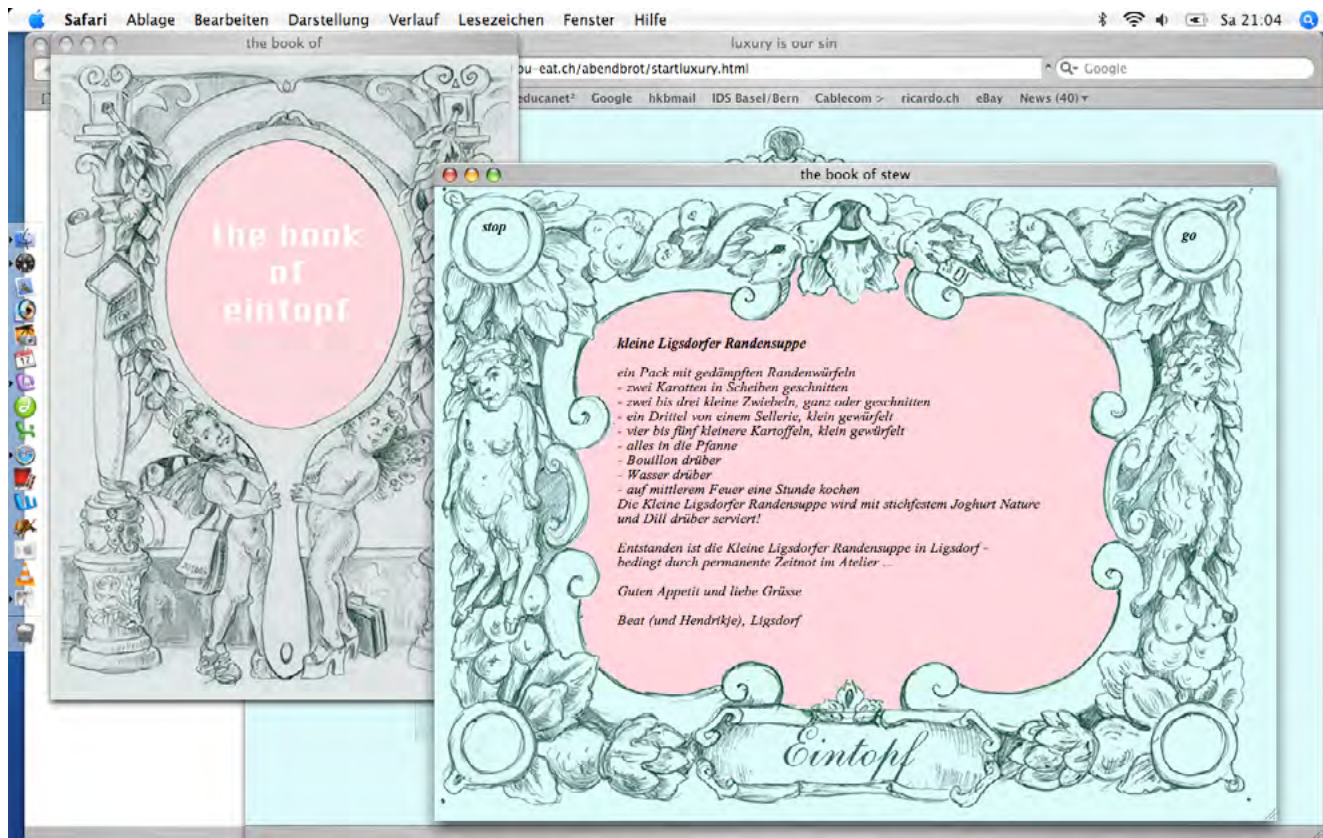

„à discrétion“, a project curated by Annina Giocco und Aline Feichtinger, took place in the Kaskadenkondensator, Basel (CH) and in the internet ([www.do-you-eat.com](http://www.do-you-eat.com)). It focused the representation of food and eating culture in the new medias, especially in the internet.

The contribution of Copa & Sordes is a digital cook book with proposals for a dinner (Abendessen) that have been collected by a forward mailing action. It shows what different people use to eat in the evening, During one week every evening one dinner was realized from this virtual „Book of Cooks“. It was offered for free at a big dining table, every visitor of the exhibition could join. The discussions at the dining table transformed the atmosphere of an exhibition space into a familiar situation of private life.
